

## CERTIFIED SUSTAINABLE VINEYARD & WINERY SIGNS

earn points for LR 1.16.1 Vineyard Signage

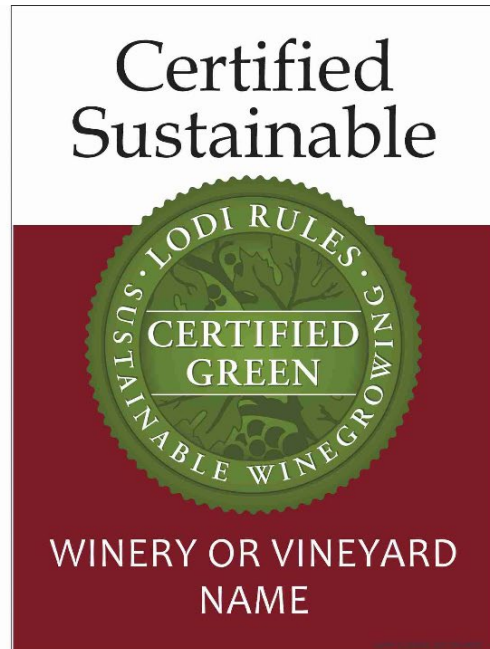

**LODI RULES** Vineyard and Winery Signs are a wonderful way to communicate your commitment to sustainable agriculture to your neighbors, community, customers, tourists, and the general public. In fact, marketing sustainability enhances the sustainability of sustainability!

Signs are available for all certified sustainable growers participating in the **LODI RULES** program and all wineries using one of our **CERTIFIED GREEN** seals on their wine labels to purchase (certification status is confirmed before purchase).

Two sign options are available: a horizontal orientation (24" x 32") and a vertical orientation (32" x 24"). The horizontal option is designed to be read from a passing car, so it is well-suited for road-side vineyards. Signs are customizable with your vineyard, winery, ranch, and/or vineyard management name, and are available with our **LODI RULES, CALIFORNIA RULES**, or **CERTIFIED GREEN** seal.

24" x 32" sign templates

You can place your orders with Robyn Markle at Gary's Signs in Lodi via email ([robym@garyssigns.com](mailto:robym@garyssigns.com)) or by telephone at 209.369.8592.
